A school can only qualify if 4 runners finish a race.

If a school has qualified as a team in one fixture but not another, they will be given no points towards their overall score for the race they did not qualify as a team.

E.G: Fixture 1, School A Y5 Girls Team placed 1st. So they get 30 points. But in fixture 2, Y5 Girls School A did not qualify, so they would get 0 points.

This means they would only have a total of 30 points qualifying towards the total whereas School B who qualified in both fixtures would have both their fixture points contributing to their total.
